

Lieve lezer,

Deze channelling van Jezus mocht ik ontvangen tijdens de voorbereidingen van het vrouwenweekend Gateway to Heaven van 1-5 mei 2014 in Rennes le Chateau, in het bijzijn van mijn tweelingzielenzus en een andere deelneemster. Het was een zeer bijzondere intense ervaring om te voelen hoe het is als iemand anders, Jezus in dit geval, jouw lichaam en jouw stem gebruikt als spreekbuis voor de wereld. Verbind je met de energie die je er bij kunt voelen en geniet er van!

Jezus:

I did die for a reason.

(downloading energy)

I did die for a reason.

(downloading energy)

Time does not exist.

(downloading energy)

Time does not exist.

And time does not exist.

I am here. I am really here, one me. One me.

We are all alive, there is no difference. We all have these hearts, they are so powerful if we use them properly. We are so used to look down to our feet and to digest what is good for us. And then we forget about the rest of the people. And that is what happens when you stay small. And then you shrink and your heart shrinks. And your heart should be open as mine, and you should allow yourself to open your heart and to express the light in yourself so other people can touch it and feel it. DON'T BE SHY DON'T BE SHY. People have cursed at me, because they did not understand me.

So you have to find new words so people can understand. And sometimes you do that without words. Just by opening your heart and let be, let the light shine through your heart to the people around you. And don't do it again, don't be shy, let it flow.'

And then Jezus asked me: Tell them how you feel.

'It is like, I just feel now, it is like my heart is.... is....(looking for words) is... it is even beyond my hands now, the purity of my heart is even beyond my hands now, it feels like the light shines beyond my hands now, but the heart is beyond my hands. It is like I am just sitting in my own heart. It is even beyond my toes. This is how big my heart is now. It is like silver

shining, like silver platinum, it is like silver moon. These are the colours of my heart, but my heart is beyond my body. I Just feel I am the heart. I am the heart. This is how it feels now. I am the heart, I am completely the heart.'

Jezus: 'And this his how I was able to just be at that cross, because my heart was just beyond my hands and my feet, I just was my heart and this is how I could surrender. Because when you are in your heart, you never die. You are just consciousness and love.

*And there is nobody who can stop you to this. You just are, this is how you are and this is what you are, you just give it totally by being and people will feel and people will feel attracted. And they will feel that huge. And you just rest in it, there is nothing you need to do. Just rest in it and relax in it. So softly and masterful. And softly as Maria is, and just relax in it. And you can just be, be the light.
Thank you.'*
